In 2014 Sandy Strait State School will be focussing on developing a culture of inclusivity through a Whole School approach to catering for students with diverse needs.

A new program has been developed to cater for the needs of students who require enrichment and adjustment. The Australian National Curriculum is not a “one-size-fits-all” learning pathway and many students learn differently.

**Our Exciting New Whole School Approach**

**What will happen to the SEP?**

The Special Education Program (SEP) will become the Learning Enrichment and Adjustment Program (LEAP) and D Block will be known as the Learning Enrichment Centre (LEC).

**How will the Learning Enrichment Centre (LEC) operate?**

Teaching and Education Support Staff will work together to provide a program that is designed to cater for the specific learning abilities and needs of students through Target Goals.

The Scope and Sequence of the Australian National Curriculum will be used to plan the Target Goals for each of the students who are in Learning Enrichment Action Pods (LEAP groups).

**Where will my child’s class be?**

All LEAP students will be placed in a “Home Group” class and will start each day in this classroom. The LEC Staff will join a Home Group to work as part of a teaching and learning team to support the students.

**What subjects will my child be involved with at the LEC?**

Some students will need to join both Maths and English LEAP groups but some may join for English only or Maths only. Students may also join their Home Group class for Reading Block lessons. Other Key Learning Areas (e.g. Science or History) will be planned by the teaching and learning team to suit the needs and abilities of the students.

Some students will be at the LEC in the afternoons for specific lessons while others will be in their Home Group class.
